

# The African Power Sector

## Tracking Private Investments

A part-time position for a Research Intern is being offered at the University of Cape Town's Graduate School of Business to provide research support in a team working on investments in the African electricity sector.

The research work will be supervised by Wikus Kruger, a PhD Candidate in the Management Programme for Infrastructure Reform and Regulation (MIR). Further information on MIR's research activities and publications may be obtained at [www.gsb.uct.ac.za/mir](http://www.gsb.uct.ac.za/mir).

Applicants should have an Honours degree and should demonstrate strong interest or experience in the energy sector.

Remuneration will be based on UCT rates for tutors and assistants - time commitment not more than 20 hours per week.

Applications should be submitted to [wikus.kruger@gsb.uct.ac.za](mailto:wikus.kruger@gsb.uct.ac.za) by 9 February 2018 and should include a covering letter indicating the applicant's interest and experience in this area, a curriculum vitae, full academic transcripts and a piece of academic writing (dissertation, essay, article).
